

LEARNING ENHANCEMENT

Problem Statement:

Finding the way through the university building was always a hustle (especially for master's students *wink-wink*) but not anymore.

Solution Overview:

By providing students with a floor plan that communicates clearly where he should be at any moment in time, confusion goes away.

What are our targets?

Student Support

This service enables students to navigate through the college without getting lost.

On-Hand Info

They have all the information necessary for the lectures in the palm of their hand.

Technologies Used
